

Connectors

STEEL CONNECTORS

Complies with the EN 362 standard. Available in many sizes and shapes and made of steel.

model	description - opening	code
M10	manual screw locking - 18 mm	031652
M11	semi-automatic locking - 17 mm	031662
M23	automatic locking triple safety - 18 mm	059002
M41	double trigger automatic locking - 21 mm	031722
M46	double trigger automatic locking - 20 mm with fall indicator	031742
M47	double trigger automatic locking - 18 mm	033032
M53	double trigger automatic locking - 50 mm	031772
M60	semi-automatic locking - 50 mm	032482

ALUMINIUM CONNECTORS

Complies with the EN 362 standard. Available in many sizes and shapes and made of aluminium.

model	description - opening	code
M12	manual screw locking - 17 mm	031672
M13	manual screw locking - 22 mm	031682
M15	semi-automatic locking - 20 mm	031692
M22	Automatic locking triple safety - 24 mm	056222
M40	double trigger automatic locking - 25 mm	031712
M42	double trigger automatic locking - 18 mm	031732
M51	double trigger automatic locking - 60 mm	031752
M52	sliding ring and retractable pawl - 60 mm	031762
M54	double trigger automatic locking - 110 mm	032462
M56	double trigger automatic locking - 24 mm	032472
